Replacement filter pads

AS-FLT-600	Suits AS-EGR-600-F
AS-FLT-400	Suits AS-EGR-400-F

Overview

An egg crate grille has a high free area, so return air passes through with little resistance and little noise.

Specifications may change without notice. Confirm details for your project with Austra Supply before ordering.

The core is removable, so the filter behind it can be changed without tools or ladders inside the ceiling. A filter pad comes with every grille. Replacement pads in matching sizes are listed below, so you can quote the first service at the same time as the install.

Typical applications

Return air for ducted systems · Residential and commercial ceilings · Filtered return air paths · Service and maintenance contracts
