AS-SQD-600	Face 600 × 600 mm, surface mount

Overview

A square ceiling diffuser spreads supply air in four directions across the ceiling. It is the most common supply outlet on commercial and residential ducted jobs.
The 595 × 595 size drops into a standard 600 mm T-bar ceiling grid. The 600 × 600 size surface mounts on plasterboard ceilings.

Typical applications

Offices and shop fit-outs · Residential ducted systems · Suspended T-bar ceilings · Plasterboard ceilings
